

H21/H

'HIDROSTAL - TYPE C & V - SEALS'
SPECIFICATION SHEET

- ▶ Suits Hidrostal pumps
- ▶ Replaces Type "C" & "V" seals
- ▶ Exposed-spring seal

H21/H replaces the Type "C" or "V" seal codes in Hidrostal pumps. Typically in tandem arrangements, it is used in both inner or "motor-side" position but in some pumps, will also be used in the outer or "product-side" position.
