

H502/S

'SYKES - 726350'

SPECIFICATION SHEET

- **Rubber Bellows Drive**
- **Replaces OEM: 726350**
- **Suits Sykes / Primax Pumps**

H502/S replaces the OEM 50mm: "726350" seal assembly found in many Sykes / Primax dewatering pumps.

The seal is rubber bellows driven which extends the full length of the seal, protecting the shaft against wear. The internal components are encased and protected by a metal housing. The stationary is of a monolithic block-type design and is slotted to engage with a pin in the seal housing for anti-rotation.
