

HG3 / HG2

'H/GRU/G3 & H/GRU/G2'

SPECIFICATION SHEET

- ▶ Shaft seal only
- ▶ Long tail to length L1N
- ▶ Short tail to length L1K
- ▶ Suits CR & CH pumps
- ▶ Rubber bellows seal

Bellows seal with torque transmission across the spring and around the bellows. It is not designed for hard material pairings in applications with poor lubrication.

Due to the bellows, the seal does not wear the shaft, and the axial movement is not prevented by deposits or seizure on the shaft.
