

HGPD

'CR PUMP - SEAL CODE A-'

SPECIFICATION SHEET

- **Seal Code 'A-'**
- **OEM Replacement**
- **Older Grundfos CR Pumps**

HGPD replaces the Type "A-" code component seals typically fitted to older Grundfos CR - Vertical Multi-stage pumps.

The unbalanced o-ring design was originally introduced by Grundfos in the 1950s, featuring a rigid torque transmission design specifically for hard-face material pairings. Shaft and seal dimensions were made according to DIN 24960.

The spring cap has raised male "pins" that lock into a shaft connector.
